

## MAGO: A game changer to build web applications for water and agriculture

**Project Title:** Mediterranean wAtEr management solutions for a sustainable aGriculture supplied by an Online collaborative platform.

**Acronym :** MAGO

**Framework:** MAGO is the new project funded by the Partnership Initiative for Research and Innovation in the Mediterranean Region "PRIMA" within the framework of the Horizon 2020 European Program for Research and Innovation.

**Duration :** 3 years (2021-2024)

**Kick-off meeting date :** May, 19<sup>th</sup> 2021

**Project Objectives:**

- This collaborative project will demonstrate novel solutions to enhance integrated water resources management for a sustainable agriculture in the Mediterranean Region.
- These solutions will build upon a novel participatory approach with end-users and stakeholders and a new online collaborative platform for researchers and entrepreneurs for delivering web applications
- These solutions, which will be demonstrated in Tunisia, Spain, France and Lebanon, will boost water use efficiency in agriculture, the use of alternative water resources and climate change adaptation (CCA).

MAGO vision and Project Objectives

**MAGO Project partners :**

The project consortium consists of 11 partners: CETAQUA (Coordinateur), Aigües de Barcelona, IDAEA, CSIS Barcelona et AMB - Spain, INRAE et LISODE - France, UTH - Greece, INRGREF, Ezzayra Solutions - Tunisia, AUB - Lebanon, Meta Meta Anatolia, Turkey.

**National Stakeholders :** DG/GREE, AVFA, BPEH, ONAGRI, CRDA Nabeul, CNCT, CTA Béni Khalled, GDA(s) Nabeul.
